Most children have at least a passing idea of the story of Noah's ark. It's often presented as a fun Bible story, and you can't miss the cutesy, round ark with the giraffe's head poking out the roof on wallpaper, light switches, games and toys. Sadly, many children have little or no concept of the truths behind the real story. The purpose of this program is to give the children a true account of this story, along with five other parallel stories that reinforce the Bible truths of the flood account. Children will also enjoy the opening devotion presentations by members of Noah's family.

This course is priced higher than the other courses because it includes a 6-foot model of the ark that the students build. This course also highlights a special musical that the students learn throughout the week in place of songs which makes an ideal parent or church presentation after the school has ended.

SPECIAL WITH THIS COURSE: This course includes a complete children's musical; a 6-foot ark that is constructed by the children throughout the course; many outdoor game ideas.

DAILY OPENINGS: Devotions are presented by Noah and his family from a makeshift room inside the ark. *(Dialogue is included.)*

ADDITIONAL ITEMS: Posters, Ark Blueprint *(may be ordered separately for Internet-sent orders)*, Supplemental DVD "Noah's Ark – Thinking Outside the Box", Generic Outdoor Banner, T-shirt Iron-On Transfer Paper, Doorknob Hanger Bags, Doorknob Hanger Blank Paper, Song DVDs
